Chronomancer

Nicholas Light

The Chronomancer has discovered natural crystals of such purity and perfection that they can magnify and modify light into a force that opens portals in space and time. From his castle lair, he is controlling the fate of the worlds.

THE BOOK

For one last time Anna crosses the portal between her world and Kalland. The Chronomancer has kidnapped her brother Bash and only Anna can bring him the ransom he demands. In a world of knights, castles, great sailing ships, spices, and priceless crystals, the Families of Kalland have been suppressed by the conquering Far Worlders.

Anna must cross back to her own world to find the precious object the Chronomancer wants. But there is a problem. The portals opened by the Chronomancer are destabilising Anna's world, causing earthquakes and mighty storms.

Time is short but Dan, Anna and Bash must decide who they can trust before they can make their final escape from Kalland.

Will it be the boy Roba'athixaphal, the Meneth, Za'areth, the Duke's loyal Captain of the Guard, Garratt, or the

Chronomancer's apprentice, Yerda?

The Chronomancer has manipulated the children's lives for the last time. Can they escape his deadly grasp?
